

BOLDON SCHOOL

NON-SMOKING POLICY

As from Monday 23 February 1998, there will be no smoking at all, at any time, by anyone on the school's premises.

This includes teaching and non-teaching staff, students, governors, parents and community groups.

The premises include all school buildings and social facilities and the surrounding playgrounds and sports fields.

As new teaching and non-teaching staff are recruited they will be informed of the policy.

The policy is approved by the Governing Body and will be regularly reviewed.

The rationale for the policy is linked with the promotion of health by the school as an organisation and does not give the impression of discrimination against the behaviour of individuals.

Signed:  Mr C Whitfield, Head Teacher/Warden
